

OR-X10

PURE ELECTRIC RIDE-ON FLOOR SWEEPER AND SCRUBBER

纯电动驾驶式扫洗一体机

The machine is suitable for large square, factory, workshop, supermarket, hospital, station, parking lot and so on. This machine can sweep and wash together, with greater applicability.

本款纯电动驾驶式扫洗一体机适用于大型广场、工厂车间、超市、医院、车站、停车场等。扫洗相结合，实用性更强。

Item 项目名称	Specification 参数
Work Efficiency 工作效率	7500m ² /h
Scrubbing Width 清洗宽度	1250mm
Rolling Brush Width 滚刷宽度	680mm*2
Side Brush Diameter 边刷直径	400mm*2
Voltage 电压	36V
Rated Power 额定功率	3600W
Continuous Work Time 持续工作时间	>4h
Forward Speed 前进速度	0~6km/h
Max Climbing Capacity 爬坡度	>30%
Clear Water Tank Capacity 清水箱容量	150L
Sewage Tank Capacity 污水箱容量	185L
Trash Capacity 垃圾箱容量	10L
Dimensions (L*W*H) 外形尺寸 (长*宽*高)	2000*1250*1400mm
Net Weight 机器净重	560kg
Gross Weight 机器毛重	710kg

ORIENT INDUSTRIAL CO., LTD

• Integrated Control Technology 全自动操作

Using integrated control technology, easy to operate. It's with undervoltage, overcurrent, water level sensor, intelligent search error and other protection functions, so that it can comprehensive protect the operator and equipment. 电气采用集成控制技术，全自动作业，操作简易。提供欠压、过流、水位感应、智能检索报错等保护功能。

• Double Roller Brush Structure 双滚刷结构

Use of double roller brush structure, sweeping and scrubbing in one operation can achieve whole cleaning of the ground, and collecting of ground garbage. Roller brush free tool replacement, easy to maintain. 采用双滚刷结构，扫洗一体式作业方式能实现对地面的深入清洗、对地面垃圾的清扫。滚刷免工具拆卸更换，便于维护。

• Roller Brush Pressure Automatic Adjustment Device 滚刷压力自动调节

Roller brush can adjust the roller brush up and down according to the ground leveling automatically. During the cleaning process, the ground is uniformly compressed, and the wear protection is provided to the ground and the roller brush. 配备滚刷压力自动调节装置，可以根据地面平整度自动调节滚刷升降。清洗过程中地面均匀受压，可以对地面和滚刷提供磨损保护。

• Garbage Collection Device 配备垃圾收集装置

Equipped with fault automatic retrieval device. Equipped with solid garbage collection device. 配备故障自动检索装置。配备固体垃圾收集装置。
